

## "Kyushu University Energy Week 2018" will be held

Kyushu University established the "Platform of Inter / Transdisciplinary Energy Research" in October 2016 as a platform without borders among the different energy research fields, aiming to lead the paradigm shift in technology, industry, and society by conception an energy system of a future society.

By utilizing our university's strengths, our organization will embody "the energy society of late this century and 2100 years" by gathering the knowledge of All Kyushu University.

At this time, Kyushu University hold the conference named "Energy Week 2018" as a major event of energy, which related research Industry-University-Government Collaboration, from January 29 through February 2, 2018.

Researchers and students from the field of all energy category participate, furthermore, we will invite many prominent researchers from domestic and abroad.

We will have "The I<sup>2</sup>CNER Annual Symposium" held annually by the Carbon Neutral Energy International Institute (I<sup>2</sup>CNER) on January 31, as part of this energy week.

1. Period: From January 29, 2018 to February 2, 2018
2. Venue: Ito Campus, Chikushi Campus, ACROS Fukuoka, etc.
3. Session theme: Contribution to energy of Kyushu University, A vision concept of the Kyushu University Platform of Inter/Transdisciplinary Energy Research, Kyushu University's Future Energy Research, Presentation (Young student achievement presentation meeting)
4. Event composition: Lectures, Symposiums, Workshops, Panel discussions, Poster sessions, & etc.
5. Major lecturers:  
Chinese Academy of Sciences Professor Mr. Xiangzheng Deng,  
University of Hawaii, Manoa Professor , Mr. Richard E. Rocheleau ,  
University of Grenoble-Alps Professor Mr. Michel Pons,  
University of Tokyo Professor Mr. Yasumasa Fujii,  
National Institute for Environmental Studies (Japan), Mr. Seita Emori, etc.  
"Companies lecture"  
Honda Motor Co., Ltd., Tani Green Energy Institute Co., Ltd.,  
Toshiba Mitsubishi-Electric Industrial Systems Corporation, etc.
6. The main participating departments:  
Platform of Inter/Transdisciplinary Energy Research (Q-PIT),  
International Institute for Carbon-Neutral Energy Research (I<sup>2</sup>CNER),  
Research Center for Hydrogen Industrial Use and Storage (HYDROGENIUS),  
Research Center for Synchrotron Light Applications (RCSLA),  
The Ultramicroscopy Research Center (URC)  
Center for Co-Evolutional Social Systems (CESS)  
Research Institute for Applied Mechanics (RIAM),  
Institute for Materials Chemistry and Engineering (IMCE),
