

SECURE YOUR DIGITAL FUTURE

A seminar series on high growth technology and digital transformation.

Session III

Challenges and Opportunities of Reliability Engineering in the era of Data-Driven Intelligent Systems

July 20, 2021, 06:00 - 07:00 PM PDT

July 21, 2021, 10:00 - 11:00 AM JST

[Sign up: study.sjsu.edu/summer-III](https://study.sjsu.edu/summer-III)

Speaker

Lei Ma

Associate Professor & Canada CIFAR AI Chair
University of Alberta

Dr. Lei Ma also holds a research fellow position, co-leading Intelligent Software Engineering Lab of Kyushu University and honorably affiliated with Alberta Machine Intelligence Institute. His recent research centers around the interdisciplinary fields of Software Engineering (SE) and Trustworthy AI with a special focus on the quality and reliability assurance of machine learning and AI Systems. Many of his work were published in top-tier software engineering and AI venues (e.g., TSE, ICSE, FSE, ASE, ISSTA, ICML, NeurIPS, ACM MM, AAAI, IJCAI, ECCV, CAV).
