

**Open Seminar**  
**Keeping Kyudai's International Community Safe:**  
**How the Tohoku Crisis Affects Us**  
**April 18, 2011**

We cordially invite you to join us for an open seminar entitled "Keeping Kyudai's International Community Safe: How the Tohoku Crisis Affects Us." The seminar, consisted mainly of presentations by two of our internationally renowned experts – Professor Hiroshi Shimizu of the Institute of Seismology and Volcanology, and Professor Kazuya Idemitsu of the Department of Applied Quantum Physics and Nuclear Engineering at the Graduate School of Engineering, is designed to impart basic and accurate information about the Tohoku earthquake, tsunami and troubles at the Fukushima nuclear station, and their ramifications for Fukuoka. Natural hazards in Fukuoka will also be discussed, and there will be occasions on which the participants may ask questions.
