

■ For Students Setting-up Parental Password

After a student creates a Parental Password, the Parental Account will be activated. Please communicate the process to your parent(s) and create a Parental Password if you choose to grant your parent(s) permission to view your grades. Students are to inform their parent(s) of their Parental Password/User ID ("Pa" + "Student ID Number").

※ Grades may be checked a day after the Parental Password has been set.

1. Click on ① or ② for "Parental Password".

2. After creating the Parental Password, please provide your parent(s) with their User ID ("Pa" + "Student ID Number") and the Parental Password.

3. If you wish to change or have forgotten the Parental Password, then please visit your Student Section with your Student ID Card
