

Kyushu University Detailed Regulations for Safety Management of Experiments involving genetic modification

Kyushu University Detailed Regulation No. 12 of 2004
Established: April 1, 2004
Last amended: April 1, 2016
(Kyushu University Detailed Regulation No. 22 of 2015)

(Purpose)

Article 1 These Detailed Regulations are established pursuant to Article 27 of the Kyushu University Regulations for Safety Management of Experiments involving genetic modification (Kyushu University Regulation No. 82 of 2004; hereinafter referred to as the “Regulations”) to prescribe necessary matters concerning the procedures for applying for experimental plans for genetic recombination experiments (hereinafter referred to as “experiments”).

(Application for experimental plans, etc.)

Article 2 Applications for experimental plans as specified in Article 10, Paragraph 1 of the Regulations shall be made using the prescribed form.

(2) The provisions of the preceding paragraph shall apply mutatis mutandis to cases where an experimental plan is to be changed.

(Markings related to experiments)

Article 3 The markings specified in Article 15 of the Regulations shall be made in the prescribed format.

(Signs for facilities used for experiments)

Article 4 Facilities used for experiments shall display signs in the prescribed format. However, this shall not apply to facilities used for P1 level experiments.

(Recording and preservation of experiments)

Article 5 The person responsible for the experiment shall record the experiment on the day it is conducted and preserve the records for five years.

(Transfer of Living Modified Organisms)

Article 6 The notifications specified in Article 18, Paragraphs 1 and 2 of the Regulations shall be

In case of conflict between the rules translated into English and the Japanese original, the latter shall prevail.
--

made using the prescribed forms.

(Reporting the completion or discontinuation of experiments)

Article 7 Reports specified in Article 19 of the Regulations shall be made using the prescribed form.

(Preservation of Materials Related to Large-Scale Cultivation Experiments)

Article 8 Materials specified in Article 20 of the Regulations shall be preserved for five years from the date the experiment is approved.

(Education and Training)

Article 9 The education and training specified in Article 21 of the Regulations shall be conducted at least once a year.

(Amendment of these detailed rules)

Article 10 Amendments to these detailed rules shall be made following deliberation by the Genetic Modification Experiment Safety Committee.

Supplementary Provisions

These Detailed Regulations come into effect as of April 1, 2004.

Supplementary Provisions (Kyushu University Detailed Regulation No.44 of 2004)
These Regulations come into effect as of April 1, 2005.

Supplementary Provisions (Kyushu University Detailed Regulation No.1 of 2005)
These Regulations come into effect as of July 1, 2005.

Supplementary Provisions (Kyushu University Detailed Regulation No.1 of 2006)
These Regulations come into effect as of May 1, 2006.

Supplementary Provisions (Kyushu University Detailed Regulation No.20 of 2006)
These Regulations come into effect as of April 1, 2007.

Supplementary Provisions (Kyushu University Detailed Regulation No.19 of 2009)
These Regulations come into effect as of April 1, 2010.

Supplementary Provisions (Kyushu University Detailed Regulation No.7 of 2013)

In case of conflict between the rules translated into English and the Japanese original, the latter shall prevail.
--

九州大学遺伝子組換え実験安全管理細則

These Regulations come into effect as of August 1, 2013.

Supplementary Provisions (Kyushu University Detailed Regulation No.20 of 2014)
These Regulations come into effect as of April 1, 2015.

Supplementary Provisions (Kyushu University Detailed Regulation No.22 of 2015)
These Regulations come into effect as of April 1, 2016.

In case of conflict between the rules translated
into English and the Japanese original,
the latter shall prevail.
